

Availability

Please search the list of EZRC zebrafish lines at <http://ezrc.kit.edu/catalog.php> for available lines, or download it as a text file from <http://ezrc.kit.edu/downloads/catalog.txt>. We ship zebrafish only as bleached embryos.

Search the list of plasmids at http://www.herbi.kit.edu/search_menu.php. Plasmid DNA is provided as a dry spot on a filter paper, to academic customers only.

Ordering

Official orders are placed by sending the completed and duly signed order form to EZRC-Requests@kit.edu. Go to "View shopping cart" on the website to generate a filled EZRC order form, or download a blank order from http://ezrc.kit.edu/downloads/EZRC_Order_Form.pdf.

Product Categories

Wild-type: Embryos are provided in quantities of 100, always from an incross.

Living: Embryos are provided in quantities of 30, either from an incross or an outcross against AB wild-type based on availability of females. Information on the type of cross will be provided with the shipment. Please note that we may freeze this line at any time, so order soon!

Living*: These lines are currently being grown up. We will ship embryos when carriers are ready, which may increase shipping time to 6 months or more. Please note that we may freeze this line as soon as carriers are available, so order soon!

Frozen: We attempt to provide embryos in quantities of 30, from in vitro fertilization of AB eggs with frozen sperm. However, if not enough embryos are generated and not enough sperm samples are available to retry, we will instead grow up the line and ship embryos when carriers are ready. This may increase shipping time to 6 months or more. Note that we cannot reduce your price in this case.

Plasmid: 5 µg of plasmid DNA is provided as a dry spot on a filter paper, to academic customers only.

Prices

| Item (unit size) | Academic | Commercial |
|-------------------------------------|----------|------------|
| Wild-type (100 embryos) | € 50 | € 100 |
| Living/living* (30 or more embryos) | € 125 | € 250 |
| Frozen (30 or more embryos) | € 450 | € 900 |
| Plasmid (5µg) | € 50 | n.a. |

EZRC price list – valid from August 11, 2014

Prices were published on August 11, 2014. With publication of this price list, all previously published price lists expire. All prices shall be understood to be plus VAT as required by law. Packing and transport will be charged additionally.

Box Charges:

For zebrafish orders a € 30 box charge is applied per box. Some shipments may require multiple boxes.

Processing Fees:

A fee is charged to cover the costs associated with documents, billing and invoicing.

| Processing fee per invoice | |
|------------------------------------|-------|
| Zebrafish (EU countries), plasmids | € 10 |
| Zebrafish (non-EU countries) | € 110 |

Please note, if additional health certifications and/or import permits are required, we will bill you for the actual charges.

Shipping Charges:

You will be billed for the actual shipping charges by KIT.

Conditions and Payment Information

Material Transfer Agreement:

You will receive the appropriately filled MTA from us by mail, or it will be generated for you by the online ordering system. For your information only, an EZRC MTA template is available from: http://ezrc.kit.edu/downloads/EZRC_MTA_Form.pdf

Terms and Conditions:

KIT's "Standard Conditions of Sale of Deliveries and Services (AVB/LL)" as of 1 October 2009 (which we will be pleased to send you on request) shall apply exclusively. Other terms shall not be part of the contract, even if they are not denied expressly. The prices as per EZRC's current respective price list shall apply.

Terms of Payment:

Immediately after delivery and invoicing. PLEASE DO NOT SEND PAYMENT UNTIL YOU RECEIVE AN INVOICE FROM US.
